Dear Bill:

Our Industrial Safety Dept. feels that you are not in compliance with OSHA regulations. Your truck was observed leaving our plant carrying 5,500 gallons of Methanol Mother Liquor and there were no flammable placards on the truck.

We have discussed this before and you had agreed to meet all State and Federal Safety Requirements.

I would like a letter from you indicating that you are and will be in future in full compliance with all regulatory agencies.

Very truly yours,

R.B. Mellin, Senior Buyer  
Chemicals & Raw Materials  
Purchasing Department
